LABORATORY CASEWORK SOLUTIONS

UNIVERSITY OF FLORIDA INSTITUTE OF FOOD AND AGRICULTURAL SCIENCES (UF IFAS)

Homestead, Florida

The Tropical Research and Education Center of the University of Florida Institute of Food and Agricultural Sciences (IFAS) is located in Homestead, Florida, about 30 miles south of Miami. The center was established in 1929 by an act of the state legislature in what is now Miami-Dade County on land donated by the Krome family and Mr. Charles E. Schaff. Research, teaching and extension programs focus on tropical and subtropical fruit crops, tropical and temperate vegetable crops and ornamental crops of southern Florida. The agricultural industry served by the center has an annual farm gate value of \$834 million. Multiplier effects make agriculture's impact on the local economy worth over \$1 billion annually. The center's 160 acres consist of laboratories, greenhouses, offices, vegetable fields and fruit orchards.

LABORATORY CASEWORK SOLUTIONS

WAYNE HIGH SCHOOL

Huber Heights, Ohio

Wayne High School welcomed faculty and staff into their new High School in December, 2012 and opened its doors to students in January, 2013. Stevens' standard casework designs and configurations were used for typical classrooms, life skills labs and art rooms. Stevens music storage cabinets were provided in the vocal and instrumental music rooms including instrument and uniform storage. Stevens' millwork assemblies were used in several administrative locations. Wayne High School also features Stevens' laboratory casework in various designs and configurations to create a full complement of Chemistry, Biology, Physics, General Science and Prep rooms.
